Head ice technician

Making perfect sheets of curling ice doesn't come by accident. Or easily. That's why head ice technician Jamie Bourassa of Calgary and his volunteer staff of 18 are hard at work at 7 a.m. each morning, overseeing the precise science of manicuring the ice for the Ford World Curling Championship. The Eye Opener caught up with Bourassa during one of his few breaks to talk about the business of ice-makina.

### Q — WHAT CAN THE CURLERS EXPECT IN THE WAY OF ICE **CONDITIONS THIS WEEK?**

A — So far everything looks good. The speed looks good. We have plenty of curl. Normally, the first two days of an event, with crowds and opening ceremonies, are the toughest days to get things figured out.

### Q - HOW IS THE SCOTIABANK CENTRE FOR MAKING ICE?

A — Installation was fine. It's a good building that way, and the staff here is super.

### Q — IT RAINED YESTERDAY, IS THAT THE BIGGEST HEADACHE FOR AN **ICE-MAKER?**

- A Out here, humidity probably is our biggest concern. But if we don't get continuous days of it, we're OK.
- Q HOW MANY OF THESE MAJOR EVENTS HAVE YOU WORKED ON?
- A Oh, boy, I can't even count how many. A lot. I do about seven or eight arena events a year.

The team followed this up with what has to be considered an upset win over Scotland's Ewan entire country. MacDonald in the evening.

the first game is most important, I think, to win, and to have a good start," Morozumi said prior to his opening game.

"This is our fourth time at the Worlds but first time we have won our opening game," said Kosuke Morozumi. "Against Russia, we were just better than them we were comfortable with the ice and managed to get a good reading of it early in the game.'

Each member of the foursome has been curling for more than 15 vears, and they scored their first major victory at the world championships in 2013 when they beat Canada (Brad Jacobs) 10-8, the first time Japan had even beaten a Canadian team. They followed that up last year by beating Canada again, 9-6, against Kevin Koe's

Those successful milestones. The foursome, which has been said Morozumi, have his team confident it can play with, and beat, any team in the world

One thing working against the team is the lack of top-level competition at home, where Morozumi figures there are only about 200 teams of all calibres in the

"It's getting better, but not so "Every game is important, but much," he said. "So it is difficult to improve (within the country)."

It also explains why his team, with an overall record of 13-21 in its four previous world championship appearances, remains together after so long. Simply put, he said, there's not much choice.

"In Canada so many people play so you can chose from many people. But we're a very small population of curlers in Japan so our choice is very small."

win a world title.

But he had to find it out himself. And he finally came to the conclusion that he is not a skip in the nick of time to call a midnight meeting with three losses

morning WEEKDAYS 7-9

"I just don't see John being a skip. I just don't. Not with his personality," said the back-to-back 2008-2009 Brier skip and Vancouver 2010 Olympic Winter Games gold-medal skip.

"John, at the skip position, couldn't just relax. He'd get way too up tight and excited.

"But that doesn't matter. To win, you need a top lead, you need a top second and you need a top third. John had proven himself without any question to be one of the best thirds, ever. I don't think anybody would argue

"For John to play his best, he really has to just focus on his own game, not worry about what his skip is doing, and just concentrate on watching the ice and shooting.

"If he does that, he's as good as

it gets," said arguably the greatest curler of all-time, four-time Brier winner and three-time Olympian Martin.

"The problem I have with John at the skip position is that he tends to have trouble focusing on the shooting part and tends to over-think the strategy part. Then he gets frustrated. I think.

"It's just not something that everybody can do. And it seems to me to hurt John's shooting game when he has to try to think that way. It's just not the way his mind works. And when frustration hits, all sorts of trouble happens. When frustration sets in, it kind of goes downhill from there.

"When he doesn't have to worry about the strategy, he really has a talent. When it comes to worrying about which brush to use, soft spots in the ice, knee spots, handprints in the ice, all of that kind of stuff, he's exceptional.

"Detail. He's quite good at detail. And I'm not very good at that. For John to use his energy to be detailed in the third position, it's perfect. It's just the way his mind works. But the skipping po-

sition just isn't right for the way he thinks. That's all. He's just not a skip but he's a heck of a third.

"That's what I saw when John was a skip before he played for me, that's what I saw when John played for me and all the stuff I saw before is what I saw again this year when he was back playing skip."

Martin said that's half the story. The other half as this event gets underway is new skip Pat

The Old Bear said Simmons coulda, woulda, shoulda won the 2008 Brier skipping Saskatchewan that Martin won in Winnipeg with Morris at third.

"Pat should have beat us in the 2008 Brier 1-2 game. He had a pick. He did beat us as far as the game went. He just got unlucky with that pick. And he just proved himself at the Calgary Brier to be a fantastic skip.

"When you have John shooting and not worrying about Pat, hey, guess what? You have a Canadian championship team."

PART TWO TOMORROW

For John to use his energy to be detailed in the third position, it's perfect ... But the skipping position just isn't right for the way he thinks.

- Q WHEN YOU'RE NOT DOING THESE EVENTS, WHAT DO YOU DO FOR A LIVING?
- $\mathsf{A} \mathsf{I}$  do consulting. I also sell products for most of the major curling suppliers. In the fall I do a lot of installation.
  - Q HOW DID YOU GET INVOLVED IN THIS LINE OF WORK?
- A This is my 38th season. My dad was a rec director in the small town of Fort McLeod in southern Alberta and he looked after the rink and the pool, so I sort of fell into it naturally.
  - Q IS THERE AN ICE-MAKING SCHOOL?
- A Yes. Curling Canada teaches Level 1, 2 and 3 throughout the country.
  - Q ARE YOU HAPPIEST WHEN YOU AREN'T ASKED ABOUT ICE CONDITIONS?
- A You guys in the media will hear before we do when you interview the players if there's a problem, but if we don't hear anything, that's the best.
  - Q LOOKS LIKE YOU HAVE LONG DAYS.
- A For sure. It's even tougher with install. We did 36 hours the first day, right through, and it's 18 every day after that.
  - Q EVER HAD A BAD EXPERIENCE AT AN EVENT?
- A I haven't had a real bad one. But you get a day where you get a few extra picks, or the ice straightens up on you, and those sort of things.
  - Q DO CURLERS EVER COME UP TO YOU AND THANK YOU FOR GOOD ICE?
- A-Yeah, a lot. At the Brier this year there were guys who didn't even make the playoffs who came up and said the ice was fabulous. Then you know you've done a good job.
